PROFILE EEKELS ROMANIA S.R.L.

Eekels Romania is the sister company of Eekels Technology from the Netherlands. It is a leading supplier of electrotechnical services and systems for shipbuilding, industry, environment and infrastructure.

The company is active on the market for over 20 years and in present has over 100 specialists.

Eekels Romania is an active partner worldwide that anyone wants as a co-maker or systems integrator.

Either it's for building new vessels or refitting the aging ones, Eekels Romania can deliver complete custom made electrical installations.

The main activities performed by Eekels Romania for vessels are:

- Design and electrical engineering of power and automation systems.
- Design and engineering of main and secondary cable trays.
- Manufacturing and mounting of steelwork for electrical activities.
- Electrical cables mounting and connecting.
- Electrical panels fabrication.
- Delivery of electrical materials and equipments.
- Commissioning.
- Service and repair activities.

TBI APPURTENANCE

Eekels is part of TBI, a group of companies that modernises, organises and maintains our living environment in a sustainable way.

The group operates as a flexible network organisation. The TBI companies have high quality, specialist expertise in engineering, construction and infrastructure.

We are at our best when we are close to our customers. We make sure that we modernise, organise and maintain our living environment in a sustainable way.

We focus on continuity and on the long term. We work to build strong, profitable *and* sustainable companies. By definition, we focus on the future. Our work has both a major and a long-term impact on people's lives. The future is not something that happens to us, it is something that we can create.

We invest in people, innovation and the future.
